

Aliens love underpants

Playdough Aliens

Can you make an alien out of playdough? If you haven't got any playdough, then create your own using the recipe on the school website, under home learning, Buttermere. If you've got googly eyes and pipe cleaners, you can give your alien eyes, arms, legs and antennae! Have fun and get creative!

Underpants

Can you design a pair of your own pants. Be as colourful and creative as you like. Use the link from the website as a template for your ideas

Aliens

Mix a bowl of shaving foam with around 100ml of PVA glue. Place the foam mix on a piece of card and add some cut out arms, legs, eyes and even antennae! Leave it to dry overnight and you will have yourself a 3D puffy alien. What will you call him?

Sounds

If an Alien came to Earth, would he know what all of our Earth sounds were? Play sound bingo using the bingo boards which are on the school website. Listen to some environmental sounds on YouTube using the link below.
