### Have a picnic

Have a picnic with your family. Ask an adult to help you make some sandwiches. Practice your knife skills spreading and cutting. Smell and taste a range of different ingredients then choose your favourite ones. Eat in your garden if you can.

### Filling and emptying

During the picnic try pouring everyone a drink.

Once you have finished ask an adult for a bowl of water. Using a selection of plastic picnic cups, teapots, bowls and containers explore emptying, filling and pouring. An adult can help you see when it is full or empty.

### Mark making

Mix cornflour with water to make a thick gloop. Make enough to produce a thin layer on the bottom of a baking tray.

Make teeth like marks with your finger. You might want to copy an adult or trace their marks.
