

Handa's Surprise

Fruit Smoothie

Have a go at exploring different fruits. What do they feel like? What do they smell like? What do they taste like?

Can you help a grown up to chop the fruits to make a smoothie? Blend a handful of any fruit with 200ml of milk or fruit juice and 2 tablespoons of yoghurt for a delicious treat. If you'd rather, leave out the milk and yoghurt and have a fruit salad instead.

Listen

Read the story together. If you have the fruit or a basket, present these at the appropriate times as this will make the story even more exciting and also strengthen the link between the object and the vocabulary to support communication. If you don't have the book there's a lovely version on YouTube. Follow the link below;

shorturl.at/jkowD

Counting Fruits

Can you grasp fruits or objects and place them in a basket, bowl or on a tray? How many are there? What if someone covers them with a cloth; are they still there? Can you find them? If you take one away or add one more, how many are there now?

Remember to check out the symbol board on the school website to support communication.

Animal Print

Ask an adult to stick masking tape in various patterns on a piece of paper. Next, use your hands or paintbrushes to cover the paper in paint. When the paint is dry, remove the masking tape to reveal an animal print. Which animal print did you make? Was it a giraffe, a zebra, a lizard or something else? Perhaps it was your own creative animal print!
