

# 2 HOME PROJECTS YOU CAN DO WITH THE FAMILY

## Project 1 : Rearrange your bedroom

You can do loads of things to make your bedroom feel much different, whether you want a cosy feel or a spacious feel. Hoover under all your furniture to make your room as clean as possible. Then plan where you want to place your furniture. Use a tape measure to make sure the furniture fits!

## Project 2 : Have a kitchen clear out

When we are busy one of the things that often slips away is clearing out the kitchen cupboard!

Why not start by doing one cupboard at a time. Take everything out, give the cupboard a good clean with warm soapy water. before you start to put everything back into the cupboards:

- Make sure everything is in date!
- Throw out anything that is no longer used
