

# Goldilocks and the three bears

## Big and Small

Can you find big and small items around the home or garden. Perhaps you have a big spoon, and a small spoon. Or a big teddy and small teddy? Can you reach and explore these? If they are hidden under a cloth, can you find them? Perhaps you can pass them from one hand to the other? On the website, there are the makaton signs for for big and small. Have a go at practising these. There's also some symbols for big and small. Can you sort the items into two groups, for big and small. Finally, can you order objects from the biggest to the smallest?

## Listen to the story

On the website is a PowerPoint version of the story to explore, but feel free to use a book or a video off YouTube. Can you turn the page at the right time? Can you answer questions about the story. What will happen next? Have a go at re-telling the story to someone at home, using the pictures to prompt you.

## Porridge sensory tray

Porridge is a great material to explore in a tray as it has an interesting (messy!) texture, and is also edible. You can add some food colouring to swirl around to make it more visually interesting, and some chocolate or spices to make it more flavoursome.

## Making Porridge

Can you make some porridge for Goldilocks, so she doesn't have to pinch it from the three bears? Have a go at chopping up some fruit, with help from an adult, or adding some nuts and seeds to make it extra scrumptious. Can you take a photo of your creation?
