

Take some photographs of your changing environment at home. Go outside or do this from your window.

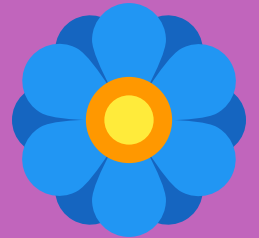

How many different colours can you find in your environment? Name them or match them!

## Environment Derwent

What plants and flowers are growing at your home or near? Can you name them? Can you find any floating blossoms to throw in the air?

Using the natural items you find outside, create some wild art. If you don't want to go outside, what can you find in your house to get creative with?
