

EL3 - Looking after your home environment

Challenge yourself to tidy and look after your home environment.

1

Deep clean your room

You could do a deep clean in your room. Clean the skirting boards, move the furniture and Hoover under your bed. Sort all your drawers out and fold and put away your clothes.

2

Wash your clothes

You could help by doing the washing. Make sure you sort the colours from the whites. Load the washing machine then add the liquid or powder.

3

Iron your clothes

Use the skills you have learnt during school and iron the clothes in the ironing pile. Make sure you check the label for the correct temperature! Be careful of the hot iron.

4

Wash the dishes

You can help keep the kitchen clean by washing the dishes. Make sure you use washing up liquid and hot water.

5

Sort the recycling

Can you sort the recycling out in your house each day into plastics and cans, paper and cardboard and general waste. Then make sure they go into the correct bin.
