

1

Scoops and Containers

Explore different containers, jugs, spoons, bottles, funnels. Try putting holes in the bottom of a bottle and see what happens when you fill it with water!

2

Painting

Use a paint brush to paint a water picture on different surfaces outside. How long do they last in the sun? You might need to work quickly!

3

Ice

Put different items in water and freeze. You can use toys, leaves, flowers, whatever you don't mind getting wet!

Use a spray bottle filled with water to get the items out of the ice.

Remember to wait around 5 minutes before handling the ice. **DO NOT TOUCH IT STRAIGHT OUT OF THE FREEZER!**

4

Wash the Pots

Use a cloth or scrubbing brush to 'wash the pots'.

5

Hang it Out

Practise squeezing, wringing, shaking and pegging by washing some clothes.

Remember to closely supervise or work closely with your child when exploring the water activities.
