

# Plants and animals in our garden

## Sing a song

Listen to songs about being in the garden. Try and join in. Copy the actions and makaton signs.

## Let's move!

Try some yoga. Copy the moves and follow the story of Enzo the bee and Nelson the Pigeon.

## Make a birds' nest

Use the internet to look for pictures or video's of birds and their nests.

Go outside and collect a range of natural materials that you think you might be able to use to make a birds nest such as twigs, moss, feathers, grass etc.

## Make flower potions

Collect as many flowers as you can. Do they smell nice? What colour are they? Count how many you collect.

Mix the flowers with water and stir with sticks. If you have suitable scissors practice your cutting skills. See the link for more ideas.

## Hedgehog art

Get an adult to cut out a hedgehog shape. Use a fork and paint to give the hedgehog spikes. Can you copy an adult making lines across the body.

Find something in your house that feels spikey!

Tip: If you don't have paint to hand, mix some mud with a bit of water and use that instead.
