Working together... Valuing achievement

Dear Parents and Carers,

Governor update

Firstly, and most importantly, I hope that you and your families are keeping well and managing in the unusual situation we all find ourselves.

I am writing on behalf of the Governors who have been meeting online to hear about the arrangements school have put in place at this time. Also to offer our support for the wonderful work our teachers, teaching assistants and our senior leaders have been doing.

Governors have been very impressed by the speedy way in which school have responded to the changing situation and the wide range of learning opportunities teachers are making available for each class on the School Closure page of our website. Things continue to change and we are in regular touch.

We hope that news on our Facebook page is also helping to keep you updated. School have explained the process they are developing of 'keeping in touch' (KIT) and we have hope that together with their contact and the information and advice on the 'School Closure page' of the website you are feeling supported. As well as class information there is an excellent range of activities on the whole school tab. I have personally found these useful and I know other governors have been enjoying starting to learn signing songs and having a go at hand massage.

We realise this is a difficult time for you and your family but wanted to let you know we were thinking of you and those close to you.

On your behalf we have sent our thanks to the staff for all their hard work. We will continue to meet with them online and support them in the work they are doing.

Yours sincerely,

Dr Ann-Marie Houghton, Chair of Governors
