

# Coloured Dry Pasta

## Materials

- Dry pasta
- Vinegar
- Food colouring
- Grease-proof paper
- Baking Tray

In a large sandwich bag add dry pasta and 1 tbsp of vinegar. (For every cup of pasta add 1 tbsp of vinegar). Add a few drops of food colouring. Mix until all the pasta pieces are fully coloured. Place a piece of grease-proof paper on the baking tray and pour the pasta on top. Lay out in an even layer and let out to dry for a few hours. Place outside for quicker drying.

Great for hiding objects in for your child to find, pouring and filling containers, and threading.
